Cookware Design **Project number: 0475**

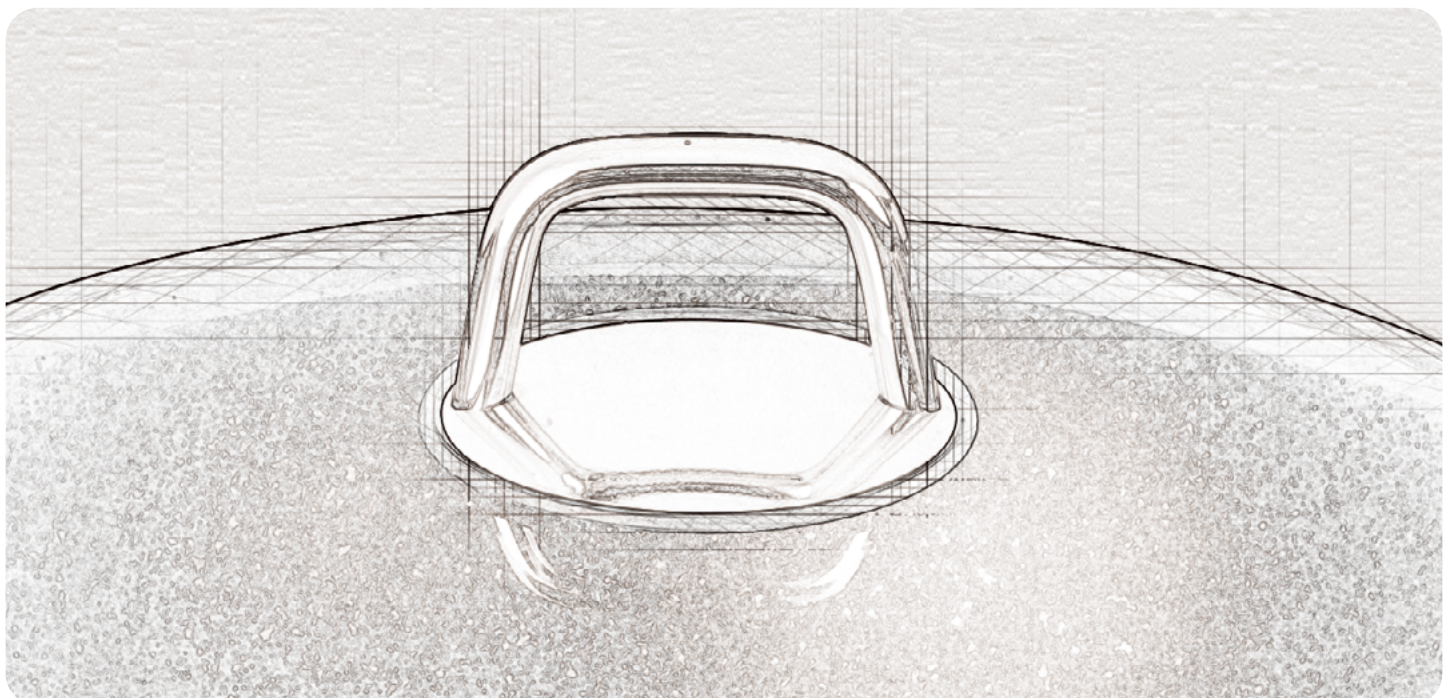

This line got the name Black Rose for a very good reason. The design resembles all the natural power and persistence embodied by roses and gives all the opportunities and beauty, just like the blooming season. The strength is composed by the forged aluminium body of this practical and universal cookware, while we also carefully crafted every and each detail to create the beauty of roses. And what about practicality? The material was designed to conduct heat well which results in an easy, quick and satisfying cooking experience. The food won't stick, your hands won't burn – what else would you wish for?

Cookware Handle and Knob

Project number: 0762

Our European designers were carefully constructing this stay-cool, ergonomic soft touch handle and knob to use its full potential. While the fine bakelite handle and knob with the soft-touch coating gives you the maximum comfort possible, the innovative hole on the handle provides you the option to show off to all of your guests by hanging up the cookware wherever you please! And if you're wondering whether your hands will get burned: we think you've probably figured out the answer...

Kitchen Tool Rest and Stand

Project number: 0196

Do you want to feel like the VIP participant of the finest kitchen exhibit? And what if we tell you, we'll make this happen in your very own kitchen?! Yes, that's right, we are talking about all those boring kitchen gadgets that BerlingerHaus was able to design in a way that seeing them will be the highlight of your kitchen experience! For example, this stylish dynamic stand stores all of your essential kitchen tools in one convenient spot, while also keeping them perfectly mess-free, clean and antibacterial while cooking. And there is more: it is rotatable in 360° and has an anti-skid bottom!

Cookware Design

Project number: 0475

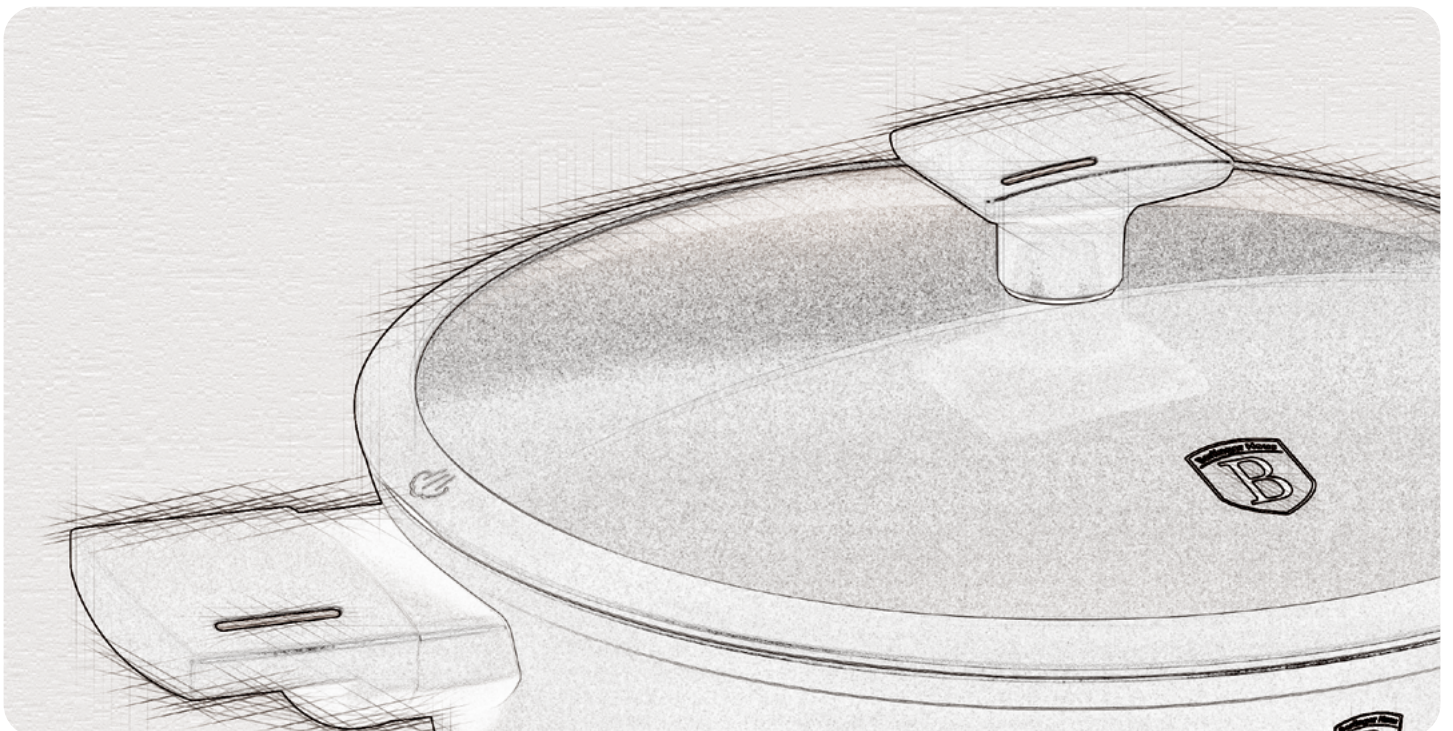

This line got the name Black Rose for a very good reason. The design resembles all the natural power and persistence embodied by roses and gives all the opportunities and beauty, just like the blooming season. The strength is composed by the forged aluminium body of this practical and universal cookware, while we also carefully crafted every and each detail to create the beauty of roses. And what about practicality? The material was designed to conduct heat well which results in an easy, quick and satisfying cooking experience. The food won't stick, your hands won't burn - what else would you wish for?

Cookware Handle and knob

Project number: 3748

This practical and elegant piece should be your next item in your collection! We spent countless hours to create the perfect balance of clean simplicity, creativity, innovation, and most importantly – practicality. Comfort was of great importance and our main aim was always in the back of our minds: a bakelite handle and knob with a smooth coating and material that keeps cooking as simple as it always should be.

Design

Knife Design

Project number: 0321

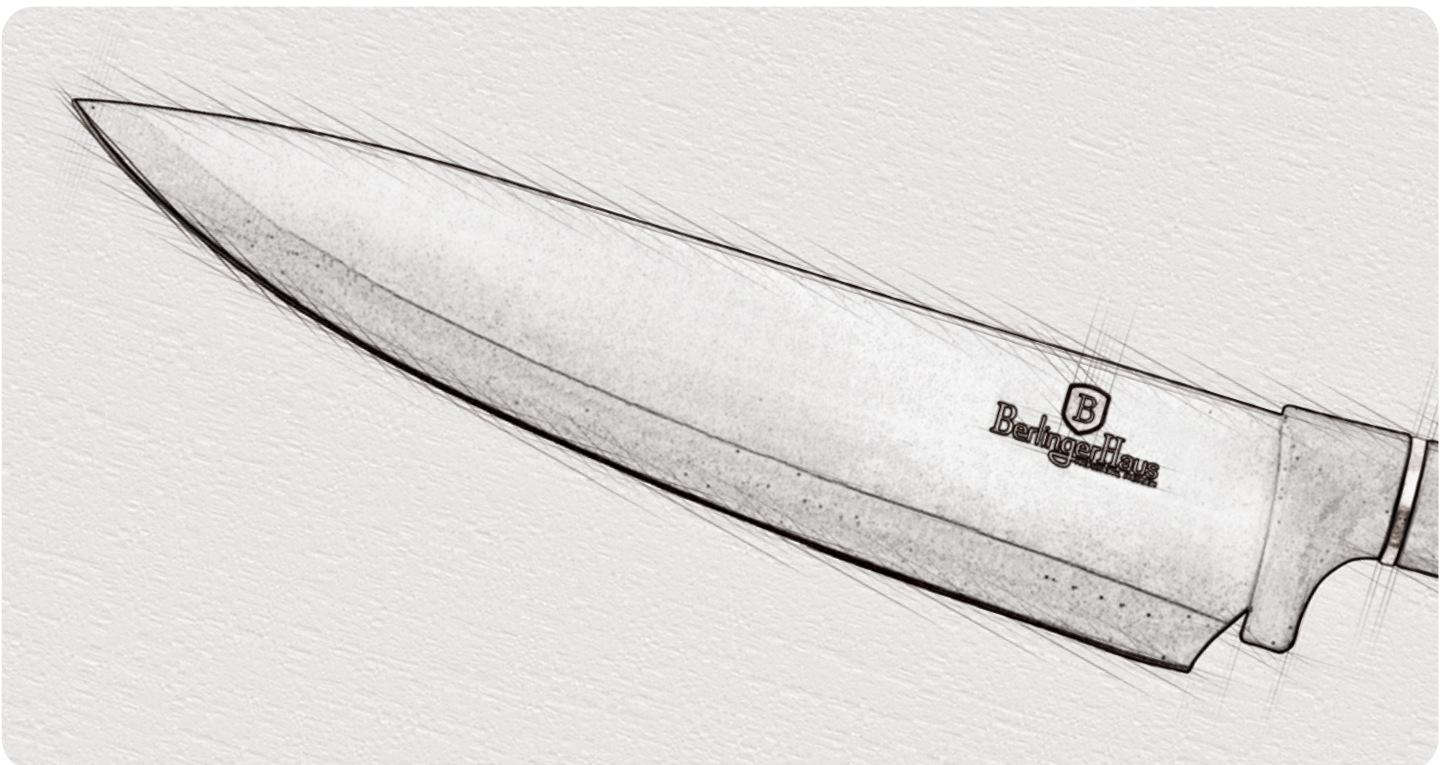

You know what they say: behind every great thing there is a great story. And it's not different for the unique Kikoza Knife either! The perfect combination of the ergonomic handle and the stainless steel was specifically visualized and designed by Sharon Kikoza herself: "I aim to show the world: practical kitchenware can also look marvelous!". Cutting has never been this easy, and the dreams of an impeccable kitchen have never been so fulfilled!

Handle Design

Project number: 2341

If you think you have already everything for the perfect kitchen, we're here to prove you wrong! This ergonomic handle developed with advanced technology aims to disrupt how people look at knives. This very handle is not just incredibly practical because of the professional Finger Guard safety design, but also visualized with such an elegance that you probably have never seen before.

Our dinnerware sets are crafted from premium, natural ceramic material that is **free of Lead and Cadmium**. This ensures that you can enjoy your meals without any concerns about harmful substances getting into your food or drinks. The material used to make these bowls is fired at 2300 for 12 hours, resulting in a sturdy, durable, and chip-resistant product that will last you for years to come.

DISHWASHER & MICROWAVE SAFE

Premium material that is fired at a high temperature twice to create reinforced ceramic bowls, make it safe for dishwasher, microwave and freezer.

WHO WE ARE

HOME IMPEX LTD.

The first step of our group of companies started by operating as a small family business in a small garage store expanded in 2007 into a Hungarian legal entity called Home Impex Ltd (existing until today as so) and in 2013 into our Hong Kong company called Global House Supply Ltd.

SALES BY CONTAINER VOLUME GROWTH

We are a fast – growing producer of kitchen household products. Our products include categories such as Cook & Bakeware, Kitchen Accessories, Kitchen Tools, Home Electronics and Kitchen Knives. Due to our investment in building up strong purchasing departments (in Europe and in Hong Kong), together with expanding net of agents and distributors in 88 countries, we have managed to grow year to year from 2007.

We have a total SKU of over 3.000 different products (32 different collections) which are manufactured in our factories according to very strict EU and FDA regulations (especially the German LFGB regulation) and as a member of Amfori/BSCI we are committed to apply all the codes of conducts in relationship with our factories in order to achieve a common international goal of improving the working environment in our factories.

As part of the confirmation of the quality of our products and services that we provide to our customers, we decided to implement a quality management system and we are now the holder of the ISO 9001:2015 certificate. This successful audit confirms that we have successfully met the demanding requirements of the certification audit of the quality management system according to the ISO 9001:2015 system standard.

Our Company in brief

High stock availability:
we keep about
350 containers/day
in Europe

Importing over
1107 containers/year

20.000 m² warehouse
in Hungary

88 countries
on all 5 continents

Nearly **110** direct
employees

3000+ Total SKU
in **32** different
collections

Nearly **400**
strategic and active
partners

Flexible payment
conditions

Market price control

Strongly active
in loyalty campaigns

24 own registered
handles, knobs
and designs

14 customer labels
and customer brands
(private labels)

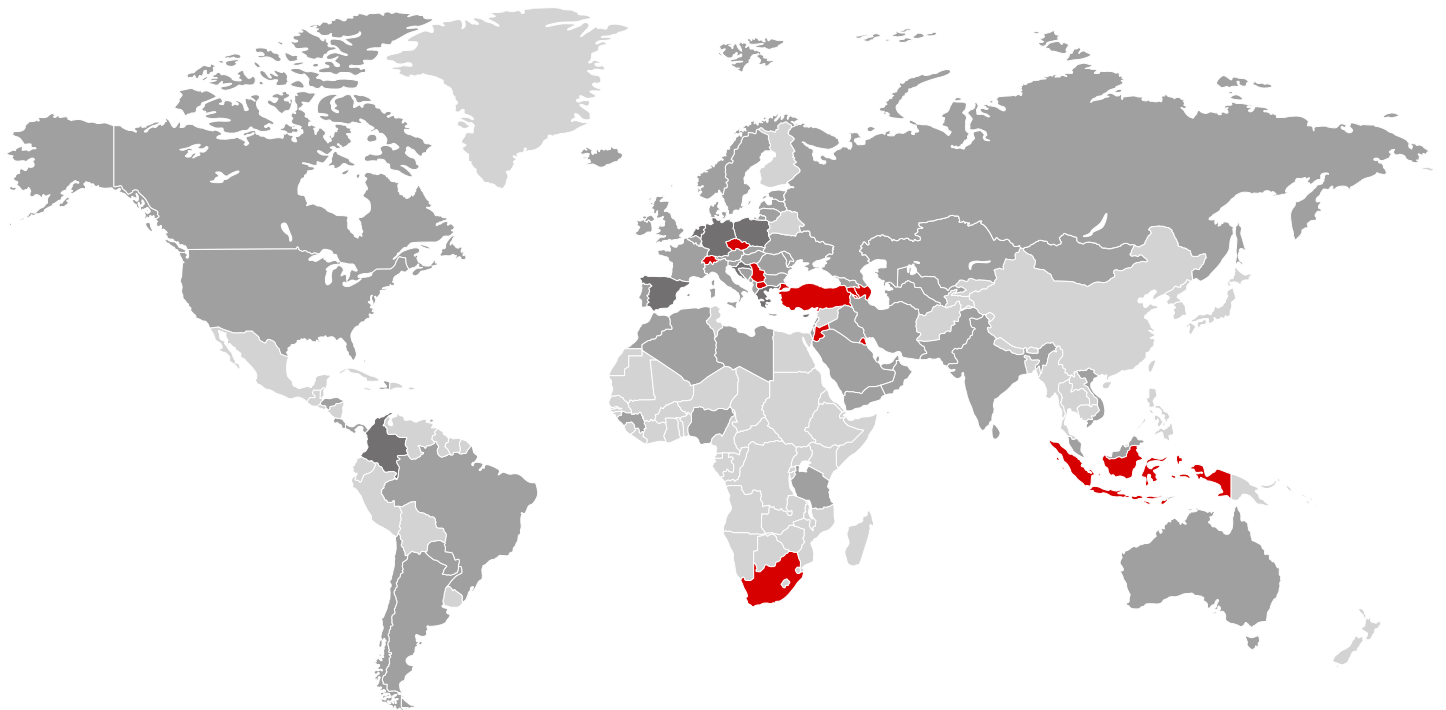

Marketing support
to offline and online
retailers

On 16.07.2021 Home Impex group has decided to be committed to energy efficiency and renewable energy. As a result of this decision the main company Home Impex Ltd. has initiated a tender in order to switch its entire energy system latest until middle of 2024 into a renewable energy enough to supply the entire energy consumption of its 20.000 m² warehouse, 4.500 m² office and showroom all around the world.

Due to the recognition that we are part of our society, therefore in the last 4 years we have invested back in our society. We are proud of our contribution to society through participating in charity events conducted by non-profit organizations in Hungary and other countries to help people in need, recognizing that an investment in our society is actually investment in ourselves.
