Cookware Design

Project number: 0475

This line got the name Black Rose for a very good reason. The design resembles all the natural power and persistence embodied by roses and gives all the opportunities and beauty, just like the blooming season. The strength is composed by the forged aluminium body of this practical and universal cookware, while we also carefully crafted every and each detail to create the beauty of roses. And what about practicality?

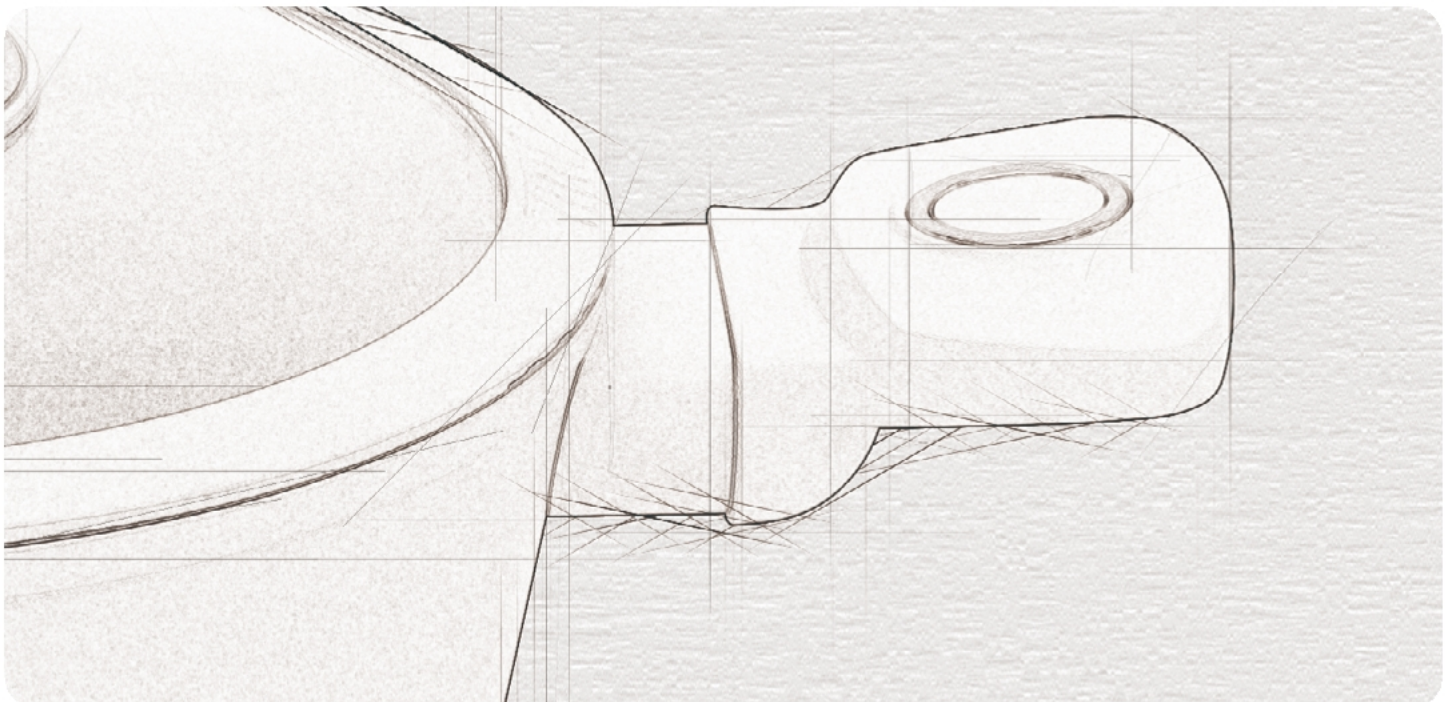

The material was designed to conduct heat well which results in an easy, quick and satisfying cooking experience. The food won't stick, your hands won't burn – what else would you wish for?

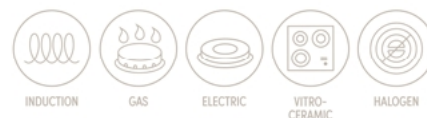

Cookware Knob

Project number: 2103

Say goodbye to those times when you accidentally burned your hands while touching the cookware handle! This stay-cool, ergonomic soft touch handle and knob will pull you out of your misery by promising nothing less than a totally heat resistant silicone, a comfortable soft feeling and no burnings at all. When you get used to them, we promise you, you won't be able to imagine a cookware without these handles anymore!

Cookware Handle Design

Project number: 0125

Have you ever wondered, how would the perfectly optimized cookware handle look like? We're proudly presenting you this professional-level cookware element, which is one of our favourites for a very good reason: the practical and easy-to-use detachable silicone handle makes you question how you could live without this up to now. And it doesn't stop here: for maximum safety, the shape and material of the handle were created through various experiments and heat treatment processes, while the handle can also be removed to use the pot in the oven, at temperatures up to 220°C. We bet now you understand a little bit more what we're talking about, but to fully experience our love for this handle, you should see it for yourself!

DINNER PLATE / X6
26,5 X 2CM

Our dinnerware sets are crafted from premium, natural ceramic material that is **free of Lead and Cadmium**. This ensures that you can enjoy your meals without any concerns about harmful substances getting into your food or drinks. The material used to make these bowls is fired at 2300 for 12 hours, resulting in a sturdy, durable, and chip-resistant product that will last you for years to come.

**DISHWASHER &
MICROWAVE SAFE**

Premium material that is fired at a high temperature twice to create reinforced ceramic bowls, make it safe for dishwasher, microwave and freezer.

For the perfect harmony...

WHO WE ARE

HOME IMPEX LTD.

The first step of our group of companies started by operating as a small family business in a small garage store expanded in 2007 into a Hungarian legal entity called Home Impex Ltd (existing until today as so) and in 2013 into our Hong Kong company called Global House Supply Ltd.

SALES BY CONTAINER VOLUME GROWTH

We are a fast – growing producer of kitchen household products. Our products include categories such as Cook & Bakeware, Kitchen Accessories, Kitchen Tools, Home Electronics and Kitchen Knives. Due to our investment in building up strong purchasing departments (in Europe and in Hong Kong), together with expanding net of agents and distributors in 88 countries, we have managed to grow year to year from 2007.

We have a total SKU of over 3.000 different products (32 different collections) which are manufactured in our factories according to very strict EU and FDA regulations (especially the German LFGB regulation) and as a member of Amfori/BSCI we are committed to apply all the codes of conducts in relationship with our factories in order to achieve a common international goal of improving the working environment in our factories.

As part of the confirmation of the quality of our products and services that we provide to our customers, we decided to implement a quality management system and we are now the holder of the ISO 9001:2015 certificate. This successful audit confirms that we have successfully met the demanding requirements of the certification audit of the quality management system according to the ISO 9001:2015 system standard.

Marketing support
to offline and online
retailers

On 16.07.2021 Home Impex group has decided to be committed to energy efficiency and renewable energy. As a result of this decision the main company Home Impex Ltd. has initiated a tender in order to switch its entire energy system latest until middle of 2024 into a renewable energy enough to supply the entire energy consumption of its 20.000 m² warehouse, 4.500 m² office and showroom all around the world.

Due to the recognition that we are part of our society, therefore in the last 4 years we have invested back in our society. We are proud of our contribution to society through participating in charity events conducted by non-profit organizations in Hungary and other countries to help people in need, recognizing that an investment in our society is actually investment in ourselves.
